

MSC Regenerative Therapy with Cancer Guard Program

The **safer** cutting-edge **dual cell therapy program** that combines
Mesenchymal Stem Cells (MSC) and **Healthy Donor Cytokine-Induced Killer (CIK)**
Immune Cells to enhance

Customised Medical Treatment and Cancer Prevention.

REGAIN YOUR HEALTH

Program Overview

Utilizes proprietary cell therapy to optimize the immune system and repair, regenerate, replace damaged cells. By incorporating CIK immune cells, this Regenerative Therapy ensures added safety, as CIK cells actively eliminate harmful and cancerous cells. Designed for individuals seeking regenerative treatment, anti-aging, and reduced cancer risk. Personalized evaluation and treatment plans by a professional medical team.

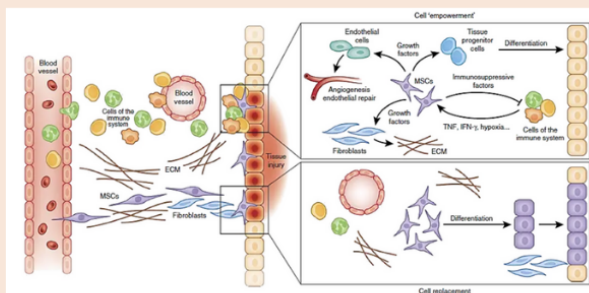

Core Benefits of Cell Therapy

Tissue Regeneration: MSC promotes **cellular regeneration**, improving body functions and slowing aging.

Immune Enhancement: CIK cells strengthen immune surveillance and **eliminate abnormal cells**.

Cancer Prevention: Dual-cell synergy lowers the risk of malignant transformation, protecting long-term health.

Administered MSC stem cells circulate through the body, locate damaged areas, penetrate affected cells, reduce inflammation, and promote tissue repair and regeneration through a process known as 'homing,' supporting the treatment of various conditions.

Cartilage Tissue Repair, Skin Repair, Brain Nerve Repair, Heart Function Repair, Female Hormone Regulation, Male Hormone Regulation, Kidney Function Regulation, Capillary Regeneration
