

Leaven Parkinson's and Dementia Therapy Program

The **safer** cutting-edge **triple cell therapy program** that combines
**Neuro Stem Cells (NSC), Mesenchymal Stem Cells (MSC) and Healthy Donor
Cytokine-Induced Killer (CIK) Immune Cells**

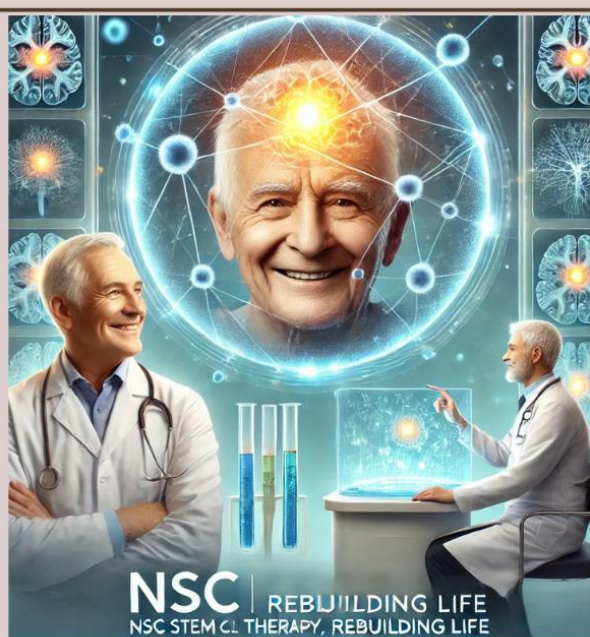

RESTORE MIND, RENEW HOPE

Program Overview

Our proprietary Triple Cell Therapy combines Neuro Stem Cells, MSCs, and CIK Immune Cells to treat neurological diseases, optimize the immune system, and enhance the body's self-repair capabilities. By incorporating CIK immune cells, this stem cell program ensures added safety, as CIK cells actively eliminate harmful and cancerous cells.

Designed for individuals seeking recovery from Parkinson's and dementia while also reducing cancer risk, the program includes personalized evaluation and treatment plans developed by our expert medical team.

What Happens When Neuro Stem Cells Deplete?

- **Neurodegenerative Decline:** Conditions like Parkinson's and Alzheimer's worsen as the brain loses its ability to repair damaged neurons.
- **Cognitive Impairment:** Memory loss, confusion, and difficulty processing information become more pronounced.
- **Motor Dysfunction:** Loss of coordination, tremors, and muscle weakness increase due to impaired neural signaling.

Core Benefits of Neuro Stem Cell Therapy

- **Neuroregeneration & Repair:** Helps restore damaged neurons, slowing or reversing neurodegenerative diseases like Parkinson's and dementia.
- **Cognitive Enhancement:** Improves memory, focus, and overall brain function by supporting neural connectivity.
- **Motor Function Recovery:** Enhances coordination, reduces tremors, and strengthens muscle control for better mobility.
- **Immune Enhancement:** CIK cells strengthen immune surveillance and **eliminate abnormal cells.**
- **Cancer Prevention:** Triple-cell synergy lowers the risk of malignant transformation, protecting long-term health.

Continuous Health Management Support

- **Regular Immune Monitoring:** Ongoing tracking of health status with personalized adjustments to optimize treatment outcomes.
- **Disease Progress Tracking:** Continuous assessment of Parkinson's and Dementia recovery, ensuring timely interventions.
- **Personalized Care:** Tailored support from medical professionals to maintain long-term neurological and immune health.

Enrolment & Pricing

Transparent pricing with flexible payment options based on treatment cycles.

Optional long-term health management services to maintain continuous benefits of cell therapy.

**The Future is Cellular:
Empowering Regeneration, Redefining Recovery**

**Neuro Stem Cell Therapy
with Cancer Guard**

**RESTORE MIND
RENEW HOPE**

The safer cutting-edge triple cell therapy program that combines
Neuro Stem Cells (NSC), Mesenchymal Stem Cells (MSC) and Healthy Donor
Cytokine-Induced Killer (CIK) Immune Cells

**Medical Consultation
and Treatment Plan**

**6 cycles of NSC + MSC +
CIK Immune cells (per
treatment year)**

Return Air Ticket

Full health screening

**50 million NSC cells,
MSC cells and
2 billion CIK immune
cells per cycle**

**5 nights 5-star hotel
stay during treatment**

**VIP medical
concierge service**

**Continuous health
management support**

**Local transport transfer :
Airport, Hotel and Clinic**

**Air Ambulance, Private
Jet and Medical Escort
(optional)**

SPECIAL PRICE**

Program Guide

START

Treatment Brief

Medical consultation and review of medical reports / scans if available
Health Screening - including full blood tests and full cancer screening*
Customised NSC and MSC Stem Cells treatment plan

Commencement of 1 Treatment Program of customised 6 cycles in
Guangzhou VIP Clinic

Air and land transport, Accommodation arrangement
(Air ticket/Hotel/Clinic)**

1 cycle*** of 90 mins per day. Total 6 days in Guangzhou****

If medical condition permits, 2 cycles per day. Total 3 days in Guangzhou

COMPLETE Follow up review and consultation after one month

*Cancer detection may not be suitable for MSC Stem Cell therapy

**Economy air ticket, 5-star hotel

*** 1 cycle consists of 50 million NSC stem cells, MSC stem cells and 2 billion CIK immune cells

****Optional day-tour to attractions may be arranged
