

Leaven Anti-Aging Wellness with Cancer Guard Program

The **safer** cutting-edge **dual cell therapy program** that combines
Mesenchymal Stem Cells (MSC) and **Healthy Donor Cytokine-Induced Killer (CIK) Immune Cells** to enhance

Anti-Aging, Overall Wellness, and Cancer Prevention.

REVIVE YOUR BEAUTY & HEALTH SAFELY

Program Overview

Utilizes proprietary cell therapy to optimize the immune system and enhance self-repair capabilities. By incorporating CIK immune cells, this stem cell program ensures added safety, as CIK cells actively eliminate harmful and cancerous cells. Designed for individuals seeking holistic health improvement, anti-aging, and reducing cancer risk. Personalized evaluation and treatment plans by a professional medical team.

What happens when Stem Cells DEplete

Our body's healing process slows and weakens over time

Our organs deteriorate without enough stem cells replenishing

We age faster, immunity weakens, and diseases become likelier.

Core Benefits of Cell Therapy

Tissue Regeneration: MSC promotes cellular regeneration, improving body functions and **slowing aging**.

Immune Enhancement: CIK cells strengthen immune surveillance and **eliminate abnormal cells**.

Cancer Prevention: Dual-cell synergy lowers the risk of malignant transformation, protecting long-term health.

Assurance Commitment

(Insurance Payout + Money-Back Guarantee)

Confident that CIK prevents cancer that if client is diagnosed with cancer during the program, they will receive a full refund* along with an insurance** payout of S\$200,000. Applies to participants who strictly adhere to the treatment plan and health management guidelines.

Continuous Health Management Support

Regular Immune Monitoring: Tracking of health status with personalized adjustments.

Comprehensive Health Interventions: Includes nutrition guidance, fitness recommendations, and mental wellness support.

Long-Term Anti-Aging Support: Enhances cellular vitality for a higher quality of life.

Enrolment & Pricing

Transparent pricing with flexible payment options based on treatment cycles. **Choice of 5 or 10 year program**

Optional long-term health management services to maintain continuous benefits of cell therapy.

Injected Stem Cells circulate, target injuries, enter affected cells, suppress inflammation, and repair and rejuvenate tissues through 'Homing', aiding various ailments
